SUMMARY

The video chronicles a father's experience caring for his sick baby, Rory, who is suffering from bronchiolitis. While navigating the challenges of a sick day, the father shares humorous moments and practical tips for managing his child's illness, all while reflecting on the bittersweet nature of parenting during tough times.

- *Rory has bronchiolitis, a severe cold, leading to a challenging day for his father.*
- *The father humorously compares his situation to a zombie movie, highlighting the struggle of being a parent to a sick child.*
- *Activities include using a nebulizer and suctioning mucus from Rory's nose, which both find unpleasant.*
- *The father documents their day with a GoPro, capturing the realities of caring for a sick child.*
- *They incorporate fun moments, like reading books and creating a steamy bathroom for relaxation.*
- *Despite the challenges, the father appreciates the time spent with Rory, finding joy in the experience.*
- *He acknowledges the likelihood of catching the illness himself but remains optimistic.*
- *The video ends with a call to action for viewers to subscribe and share their own tips for caring for sick children.*

check out this face still cute but slick with sick he's like a little zombie just reaching out for you it's moving super slow [Music] hey guys it's today we are having Rory's first official sick day yeah RORO

is not feeling so hot he has bronchiolitis basically he's coughing like a diner waitress bronchiolitis is basically just a really bad cold he's had a couple of sicknesses before but this one is probably the most serious he had a really rough night last night I'm very lucky I get to stay home with him today thanks to fatherly because we're gonna turn his sickness into content yeah do you love to be content what's even worse I know I'm gonna get sick I'm

gonna have to kind of like pretend to my co-workers that I'm fine even though I know I'm probably sick and getting them sick being the guy with the sick baby who then goes into the office is kind of like being the guy in the zombie movie who knows that he's been bitten but he's covering it up so I stayed home from work yesterday because my kid was sick but I'm not sick Oh what's this nothing it's nothing

so today we're having a sick day put on your sweats get yourself some chicken noodle soup and let's take care of his sick baby it's things to be sick huh our sick day starts with a little bit of fun and then no fun it's time to suck boogers out of my kids nose so we're gonna do some nose breeding I hate this and he hates it too it's so gross we got the trusty GoPro on the top of

the head here so you're gonna get a real in-depth look at nose reading I'm sorry okay don't eat it oh you want it huh there's that goal we've been mining yeah that's gross Rory how do you make a tissue dance a little nose

Friedan was a semi success and only got a little bit out it really does feel like panning for gold okay yeah you're brave brave whoo

okay I understand that you're pissed at me the trauma of having your soul sucked through your nose would make anyone sleepy so now it's nap time just got him down for a nap let's see how that's going actually going pretty good Rory is asleep right now but every six hours I have to nebulize him now I know Byul Iser isn't something that Tommy Lee Jones uses on Will Smith a nebulizer is essentially a very expensive fête

machine but for asthma we have these little gel tubes of steroids and we put them in this little container that connects to this nebulizer wasn't connects to this tube that we have been using to basically vape in my son's face and he hates it it also comes with a tiny disturbing blue velvet mask so we're not using the mask on him the day has been going pretty well so far I don't know yet if I'm gonna get a cold

because he has a cold my guess is yes but you never know I hear my son stirring which can only mean one thing it's time to nebulize okay so I'm about to get Rory up from his nap I really don't want to do this and I have to all right let's go nebulize this dude put on pants it's time put on pants whoa boy you are ready don't you on that okay so we're twisted off steroids here

yeah pour it in the base here snap that into place Rove apes like a champ as a reward we eat a little bit extra and then read a book well we eat a book and now the part of sick day that we've all been waiting for it's time for a little self-care pretty steamy in here hall room we've turned

the bathroom into a sauna pretty sweet huh man we're getting a nice steam going here a nice Schmidt you like my Japanese under eye math yeah you sweating it out row girl this is the ferris bueller portion of the sick day pretty relaxing Hara toxins out I know whenever I go first Fitz I like to eat my own toes it's like a prince video in here day turns tonight it's finally time for bed so the day is

over and Rory's in bed he did really well today for someone who is sick he is quite a trooper and he hung out with me all day I'm in the bathroom I have a little bit of a snuffle but we made it and I feel terrible that my son is sick but I do feel lucky that I get to spend the day with him so in some ways it was kind of a fun day not to nebulizing that sucked

or the nose freedom that sucked too or the crying are the sniffing the boogers or the barf brother than that it was fun oh I'm tired I'm ready to take a nap for eight hours it might have been a sick day but I felt great thanks so much for watching this week's do to dad and if you liked this video and you want to watch more dude to dad put subscribe on Pugliese youtube channel and if you have

a baby that's sick and you know some good tricks they've been the comments thanks so much for watching and we'll see you guys next week yeah [Music]
