i'm a professional makeup artist and hairstylist and i'm also a mommy of two [Music] we're going to use a lipstick and we're actually going to double it up and you will see how so [Music] so you take a little bit of your lip color at the back of your hand you dab um the color with your fingers like that okay smiling

so once you're smiling that's pretty much where your blush placements went by your blush placement and the result it gives you is a very pretty um effect which is matching exactly with your lip color the next is you go in with your kajal so put your eyelid the lower eyelid down and you go in with the patches like that basically just staining the waterline you use the same pattern pencil and you

go in on the top lid on the upper on the upper eyelid so what i'm going to show you now is um filling the brows okay i'm using my brush i will show it to you with a q-tip as well you just go in and you [Music] that's it and you're done
