SUMMARY

This module addresses the common issue of sibling rivalry, emphasizing that much of the conflict stems from parental treatment rather than the children's inherent issues. It offers strategies to foster collaboration and mutual support among siblings, aiming to create a harmonious family environment.

- *Sibling fighting often arises from competition for parental attention.*
- *Parental treatment significantly influences sibling relationships.*
- *Strategies will be provided to shift from competition to collaboration.*
- *The module aims to build a foundation for future supportive sibling relationships.*
- *Techniques will be shared for managing sibling stress effectively.*
- *Emphasis on creating a loving environment for siblings to thrive together.*

mommy so and so did this mommy but so and so did that daddy he got more than me it's not fair when will they be able to get along so i can go and pee without coming back to find one or more children in tears in this module we uncover the biggest sources of sibling fighting which actually have much more to do with how you treat them than issues they have between themselves then we'll learn how to shift from an

environment where they each compete for your time and attention to working collaboratively while looking out for each other and if your littles are already generally working well together we'll learn how to build on that foundation for a future of looking out for each other navigate sibling stresses today and look forward to a loving sibling relationship for the future [Music]
