SUMMARY

This video from KSP TV offers creative and engaging activities for toddlers using everyday household items. It emphasizes hands-on learning through play, focusing on fine motor skills, counting, and creativity.

- Use clothespins and an oven cooling rack to create a clothing hanging activity that incorporates counting and color matching.*
- Encourage toddlers to manipulate pipe cleaners through the cooling rack to enhance finger strength and concentration.*
- Suggest threading beads onto pipe cleaners for additional fine motor skill development.*
- Promote creativity by having children shape pipe cleaners into animals or robots.*
- Highlight the importance of imaginative play in early childhood development.*
- Invite viewers to subscribe for more DIY activities and parenting tips.*

hi guys welcome to ksp tv and if you're wondering just like me on how to keep your toddlers busy and engaged with using stuff just around your house then you're at the right space so let's get started first up is a simple activity where all you need is clothespin and an oven cooling rack draw and cut out items of clothing from paper you can make tops tees or whatever you like now ask your child to hang up

the clothes using the clothespin the other way using the same material help them count hang up the clothes in different rows and ask your child to count the number of clothes or clip a different number of clips to each row and tell them to hang up clothes according to the number of pins they could even play a color game by matching the color of the clothes to the pins pipe cleaners and an oven cooling rack give your child a few pipe cleaners and

ask them to go under and over the rack this helps them work on their little finger muscles and improves concentration you can even ask them to use pipe cleaners and thread a few beads through the rack a great way to work on their creativity is to get them to make different shapes with the pipe cleaners and create an animal or a robo let that imagination go wild as they work on their concentration [Music]
